MACADAMIA NUTS AND OILS

Kenyan macadamia. Macadamia oils.

Wiewir Trading LLC-FZ offers macadamia nuts from Kenya for wholesale and retail supply, alongside unrefined and refined macadamia oil.

Product illustration. Packaging and product appearance are subject to the offer.

Macadamia nuts

Kenyan origin. Wholesale and retail supply, with proposals shaped around product specifications, order size and sales channel.

Unrefined oil

An option for buyers seeking unrefined macadamia oil, with specifications agreed according to the intended use.

Refined oil

An option for buyers seeking refined macadamia oil, with a supply proposal based on their order requirements.

Tell us what you need

- Choose the product: nuts, unrefined oil or refined oil.
- Share the quantity, required packaging, specifications and intended use.
- Confirm the delivery country, destination and requested date.

Specifications, packaging, availability, pricing and supply terms are confirmed in the final offer. Kenyan origin refers to the nuts.

SOLAR STRUCTURES

Made in Poland.
For solar projects in the Gulf.

Structures manufactured in Poland, a European Union country, bringing quality and competitive value to rooftop, parking, ground-mounted and sports-facility projects.

Experience in building photovoltaic (PV) and battery energy storage (BESS) installations.

Rooftop mounting

Structures for supporting and securing PV modules on roofs, selected to suit the roof type and project requirements.

Solar carports

Structures that provide shade for parking spaces and create an area for the installation of PV modules.

Solar farms and trackers

Structures for ground-mounted PV projects, including solar tracking systems, according to the agreed project scope.

Solar roofing for sports

Canopies for sports courts with the option to integrate PV modules within the agreed design.

Illustrative designs and canopy examples, not confirmed Wiewir projects or complete PV installations.

Share your project details

- Location and application: rooftop, parking, solar farm or sports court.
- Dimensions, available drawings and module data or target capacity.
- Required supply scope and expected project schedule.

Configuration and supply scope follow a review of the site, loads, local conditions and project requirements. Modules and installation are specified separately in the offer.

Turn your project brief into a clear enquiry

Share your project requirements with a Wiewir Trading LLC-FZ sales representative to start preparing a suitable offer.
